

# Brand & UX/UI Designer

(Part-time / 3 days a week)

## Job Description

We are looking for a designer who moves comfortably between brand identity and digital design / someone with a sharp, considered eye, a strong portfolio and the creative instinct to elevate everything they touch.

This is a part-time role, approximately 3 days a week. We will start with a conversation and, if the fit feels right, kick things off with a live project. For the right person there is real scope for this to grow into something ongoing and meaningful.

You will work directly with the Creative Director across brand identity, web design and wider creative output for clients in architecture, hospitality and interiors / sectors where craft and detail genuinely matter.

## What you will be doing (depending on the project)

- Developing brand identities from early concept through to full delivery / logos, visual language, typography, colour, style guides
- Designing premium websites and digital experiences in Figma / editorial, considered, not templated
- Producing pitch decks, proposals and presentation materials that are as beautifully designed as the work they showcase
- Building and refreshing case studies that tell the story behind the work
- Contributing to Forage's own brand evolution / website, identity and positioning
- Working closely with the Creative Director throughout, with plenty of room to bring your own thinking

## You will fit the role well if you

- Have a strong, well-curated portfolio that shows both brand identity and digital/UI work at a premium level
- Are highly capable in Figma and the Adobe Suite
- Understand how to build coherent visual systems that work across brand and digital

- Have a natural affinity for architecture, interiors and hospitality / you understand restraint, space and what premium actually looks like
- Use AI tools confidently as part of your workflow / for ideation, efficiency and output, not as a crutch
- Work autonomously, take a brief and run with it, and come back with ideas rather than just waiting for direction
- Communicate clearly and work in a considered, methodical way

### The setup

- Part-time, approximately 3 days a week
- Remote, UK based
- Open to a range of experience levels / great work speaks for itself
- Real opportunity to grow with the studio as things scale

If this sounds like a good match, send your portfolio to [hello@forage.studio](mailto:hello@forage.studio)
